

## October, 21-29 Weekly Report

### 1 Progress

- [Team] Criteria for objective tree are determined by giving weight to each criterion. The tree is used to choose the most suitable project among the four projects. The resultant objective tree is Figure 2.
- [Team] The project to be realized is determined according to the criteria listed in objective tree. The results are presented in Figure 2.

### 2 Plans

- [Halil] More research on OpenCV.
- [Halil] Motor derive and basic sensor usage.
